Annual Report 2022-23

P G DEPARTMENT OF HOME SCIENCE

The academic year 2022 -23 began with election of the chairperson and secretary of the association. Ms.Haritha L of II PG was elected as the president and Ms. Sreelekshmi of 5th semester BSc was elected as the Secretary.

Our Department organised an International Webinar on “**Caring for persons with Dementia**” on 6th December 2022, as a part of Interdisciplinary International webinar series “**ECLECTICS 2022**” organised by our College and IQAC, from 21st to 30th May, 2021. The Resource person for the webinar were **Dr. Farzana Chaze** and **Dr Nellie Groenberg** , both are Faculties of Applied Health and Community Studies, Sheridan College, Ontario , Canada.

The PG Department of Home Science of Sree Narayana College for Women, Kollam, collaborated with Fevicryl, Pidilite Industries Limited to organize a twelve-day, three-month workshop for the students of Sree Narayana College for Women . The workshop titled “Artist in Me” commenced on November 5, 2023. As part of the workshop, several demonstrations and hands-on experiences kept the students engaged and allowed them to use the creative skills they had learned in the program.

The workshop came to a successful conclusion on January 15, 2023, with the hard work and dedication of Ms. Rekha Anilkumar and Ms. Sobha Anil, the resource persons. The classes were conducted on Saturdays to ensure that the students' regular academic classes were not affected. Both of them trained the students in the various art forms, helping them hone their creative skills in a fun and educational manner. The students thoroughly enjoyed the program and were able to take away several useful tips and techniques. The workshop was co-ordinated by Ms Indu Suresh and Ms Seema Gopinathan, Assistant Professors at the Department of Home Science under the guidance of Dr Aswathy Sugunan, Associate Professor and Head of the Department of Home Science. The students were trained in various art forms like **Fabric painting, Tanjore art on fabric and Warli art, Glass art work, Abstract art and Rajasthani art forms, Huichol art and Minakari art forms, Ahir embroidery of Gujarat, Tree of Life, Reverse Decoupage and Lippan fusion, Cut-work on fabric, Valkkanaadi and Dhokra art**

The conclusion of the Fevicryl Artist in Me workshop that spanned across 11 days came to an end with the conduction of an exhibition where the students got a great opportunity to exhibit their talent. The workshop gave them immense pleasure and a boundless opportunity to explore the varied forms of paintings and drawings along with curio-making sessions. The mega exhibition was organized by the PG Department of Home Science in association with the Fevicryl Pidilite Industries Ltd on the 25th of January 2023. The officials of Pidilite Industries were present for the exhibition. The exhibition was attended by the representatives of Pidilite Industries, Mr. K. Karthik, Market Development In-charge, Pidilite Industries Ltd, Kollam, Mrs.Rekha Anil Kumar, Fevicryl Certified Specialist and Mrs.Sobha Anil, Fevicryl Certified Specialist. The huge response from the students and faculties impressed the representatives of the Pidilite group. The announcement by the Pidilite group that they would return with more and fresh sessions were welcomed by the students with huge applause and much delight.

In the eventuality of the workshop and the exhibition, a Memorandum of Understanding was signed between the Pidilite Industries Ltd and Sree Narayana College for Women, Kollam with Mr. K. Karthik, Market Development In-charge, Pidilite Industries Ltd, Kollam and Dr. R. Sunilkumar, Principal, Sree Narayana College for Women, Kollam signing the MoU documents.

Report of Programme on Invited Lecture on Conducting Polymers for Plastic Electronics

14/10/2022

To instigate the drive towards research in the young minds, Department of Chemistry, SN college for women, Kollam in association with Institute Innovation Council (IIC) & Research Committee has conducted an invited talk on “Conducting polymers for Plastic Electronics” on 14 October 2022. The talk was headed by Dr. Somanathan, retired deputy director and head of polymer science. and tech dept. at central leather research institute, Chennai. The talk covers the basics of electrically conducting polymers/ polymeric semiconductors, Polymers for opto electronic devices, displays, white leds for solid state lighting, polymeric LEDs for backlight in

LCD, solar cell, Some focus on polymeric magnets, Organic LED lasers and biosensors. The expert have more than 38 years' experience in the structure (molecular –micro-(supra molecular) macro)- property relations in polymeric materials. More than 90 publications in international journal of repute and peer reviewed International proceedings. 5 Indian patents and one American, U.K. and Germany patent. The basic understanding of structure- property relationships in polymers is being utilized in solving the problems referred to by the industries. Different types of polymers were synthesized and the polymeric structure with electrical, electronic, thermal and mechanical properties was studied in detail depending on the application of these polymers for varied applications. The structures include molecular, micro and macro structures, which are related to different properties of simulated end use application. The talk was really mind blowing and the post graduate students ,research students and PhD students really benefitted from this informative talk. The students are really motivated to the research field

Report of Programme on news letter (Thanmathra) release and invited talk

08/12/2022

Department of Chemistry in association with Institute Innovation council has organized an invited talk on **Sleep and Health: Concepts from Basic to Bedside** and also the release of News letter Thanmathra on 08/12/2022. The programme was Presided over by the Principal of Sree Narayana College For Women Kollam Dr.R. Sunil Kumar. The news letter release has been done by **Dr. KAMALESH K GULIA** Scientist G (Professor) Department of Applied Biology Biomedical Technology Wing, Sree Chitra Tirunal Institute for Medical Sciences & Technology. She is expert in Neurophysiology of sleep and cognition, Role of sleep during peri-natal neuro-cognitive developmental in offspring ,Sleep and thermoregulation, Evaluation of herbal principles for insomnia, Yoga interventions for sleep disorders, and Machine learning. The talk emphasises on the sleep disorders its causes and effect on human .The session was very informative to our students and students interacted with the resource person in an effective manner. Along with this programme news letter release of our department was also organized.The news letter Thanmathra has been releasing every year highlighting the departmental activities and the recent advancements and discoveries in the field of

science. With this news letter we are updating the students with the innovations and research going on in the field of science

UGC/CSIR-NET Coaching Organized by Department of Chemistry, Programme Report

The Sree Narayana College For Women, Kollam has organized a UGC/CSIR-NET Coaching programme sponsored by the Directorate of Minority Welfare, Government of Kerala. The programme was inaugurated on 11th December 2022. The programme started at 9.00 am with a prayer song followed by a welcome speech by Dr. Chithra P G, HOD, Department of chemistry Sree Narayana College For Women, Kollam. She explained the objectives of the coaching programme and welcomed the gathering. The meeting was inaugurated by Dr. Syam Chand S S Associate Professor, Department of Chemistry, University College Thiruvananthapuram who was also one of the Resource person for conducting the coaching classes. Dr. Sunil Kumar R Principal, Sree Narayana College For Women, Kollam delivered the presidential address and also explained the importance of the programme in our college for the students. Prof. Sekharan S, IQAC Coordinator Sree Narayana College For Women, Kollam felicitated the function and was concluded with a vote of thanks by Ms. Pavitha P A, Assistant Professor, Department of Chemistry Sree Narayana College For Women, Kollam, who is the coordinator of the UGC-NET coaching programme.

The classes were started from 11 December 2022. The first year, second-year and pass out PG students of Chemistry of Sree Narayana College For Women, Kollam and from other colleges were selected for UGC-CSIR/NET coaching classes. Eighty Six students registered and around 60-70 students attended the classes everyday. 72 hours of classes on Saturdays and public

holidays covering almost all the topics of UGC/CSIR-NET syllabus including general paper were given to them. The topics include mainly Organo metallic Chemistry, Coordination Chemistry, Spectroscopy, Group Theory, Thermodynamics, Quantum Mechanics, Organic synthesis and Name reactions, aromaticity and pericyclic reactions. These classes were very useful to students for performing well in UGC /CSIR-NET Examinations. Previous question papers were worked out by students and the doubts were cleared in the next classes by themselves. Printed study materials are also given to them. The coaching classes ended on 12th February 2023.

POST GRADUATE DEPARTMENT OF ENGLISH

The Post Graduate Department of English at Sree Narayana College for Women, Kollam is pleased to present its annual report for the academic year 2022-2023. Over the past year, the Post Graduate Department of English has continued to thrive, offering a wide range of courses and opportunities for students to engage with the study of English language and literature. Our faculty members have continued to make significant contributions to the field of English studies through their research, publications, and presentations at academic conferences. We are proud to report that our students have achieved outstanding results, with many receiving prestigious awards and scholarships, and going on to pursue successful careers in a variety of fields. The Post Graduate Department of English has also been actively involved in community outreach and engagement, organizing public lectures, readings, and events that showcase the importance of English language and literature in our daily lives. We are committed to providing our students with a challenging and enriching academic experience that prepares them for success in the global marketplace. The Post Graduate Department of English at our college has had a successful year with several noteworthy achievements. Firstly, we are proud to announce that three of our students have secured ranks for the Postgraduate Course-M.A English Language and Literature: Atheena S Pillai (Fourth Rank), Gouri P (Sixth Rank) and Amina Nasrin M (Seventh Rank). This is a testament to the hard work and dedication of both our students and faculty members.

Additionally, we successfully conducted a Certificate Course in English and Interpersonal Skills, which was well-received by the students and helped them improve their spoken English skills and their self-awareness when communicating. The department level coordinators for this certificate course were Dr. Sruthi N and Dr. Aparna Ajith and the Board of Studies include five teachers from the Department of English – Jayalekshmi S, Aswathy S M, Reshma Salim, Dr. Aparna Ajith and Dr. Sruthi N. The classes for this certificate course were conducted as per the timetable scheduled and classes were handled by the faculties of the Department of English.

We also organized a highly successful International webinar in association with the Internal Quality Assurance Cell, Sree Narayana College for Women, Kollam conducted an International Webinar as part of Eclectics 2022 "To get a feel for what this means: Annie Dillard’s Thought Experiments and the Teaching of Compassion” on 07 December 2022 which attracted participants from various parts of the country. The webinar was led by renowned speaker, Dr. Scott Slovic, University Distinguished

Professor of Environmental Humanities, University of Idaho, USA provided a great learning opportunity for our students. The webinar introduced recent psychological research on the topic of compassion, showing how difficult it is for people to extend their compassion for an individual human being (or an organism from another species) to multiple individuals. Dr Slovic suggested that a background in the psychology of how we process information will enable us to appreciate Dillard's thought experiments regarding how our brains wrestle with compassion towards individuals and groups. The PG Department of English has successfully conducted PTA meetings during each semester to facilitate communication and collaboration between parents and teachers.

The Post Graduate Department of English has had a successful year in terms of achieving its goals and objectives. We have continued to provide high-quality education to our students, supported by

dedicated faculty and staff. However, we have also faced some challenges, such as budget constraints and the ongoing pandemic. Despite these obstacles, we remain committed to providing excellent education to our students and promoting the study of English language and literature. Looking forward, we have several exciting plans for the upcoming year, including new course offerings, research initiatives, and community engagement activities. We will continue to focus on improving the quality of our programs and enhancing the student learning experience.
